PERSONAL POLITICS

Dubois and Claggett Engage in a Correspondence

FOR THE GOOD OF IDAHO ALONE

The Democrats Enjoy the Fun, and Particularly the Declarations of Disinterested Patriotism which Both Make.

CLEVELAND, Idaho, April 30.—(Special Telegram to THE HERALD.)—Fred T. Dubois and William H. Claggett, both alleged United States Senators-elect for Idaho, are now having a brilliant fight through the Idaho papers in which letters are profusely intermingled with lower case and full caps. It is "My Dear Mr. Claggett" and "My Dear Mr. Dubois" until the truly Democratic partisanship does not know which horn of the Republican dilemma to hang to. Both Claggett and Dubois are patriotically devoted to the best interests of country at large, the Republican party in particular, and are sublimely indifferent to their own humble senatorial aspirations. Amidst all the newspaper controversy between Claggett and Dubois in the Republican papers there is a patriotic spirit that is elevating if not inspiring between Claggett and Dubois. The former blandly says in a recent letter to his antagonist: "You are mistaken in assuming that I look upon the senatorial controversy as a personal matter, or that I want to have any personal controversy over it. I am responsible for any change of personalities does not rest upon me or my friends. I have at all times abstained from them and requested my friends in Idaho, and especially the Republican press (there friendly to me), to avoid all personality in the discussion of the subject, although I have ever since last December been most grossly abused by the papers in Idaho which are known as your special champions. I have not seen in any Republican paper friendly to me anything of an abusive character towards myself. This is in part at least due to me to my request. A similar request from you to your organs would not have been amiss."

Sugar Trust Investigation Report.

ALBANY, N. Y., April 30.—The senate committee this morning submitted a voluminous report on the Sugar Trust investigation. It speaks of the 10 per cent. dividends and fabulous valuation placed upon the stock of the constituent corporations. The report says it was plainly one of the chief purposes of the trust to provide for the issue of certificates affording opportunity for great speculation, obviously to the advantage of the persons managing the trust and to the disadvantage of the general public, who were ignorant of the secrets of the trust. Referring to the refusal of the trust officials to show the books, the report says it is for those people to determine whether the refusal was because these books would show the trust was using the combination for illegal purposes. The report questions whether the enormous dividends have been earned in the legitimate refining of sugar and calls attention to the wide-spread speculation in securities. It is recommended that legislation be had restraining the formation of trusts as hostile to the people, or providing for their formation under the supervision of the state; that they be compelled to keep books for account on a practical basis of those subject to examination by duly appointed accountants.

The Dominion Parliament Opened.

OTTAWA, Ont., April 30.—The first session of the seventh parliament of the Dominion of Canada was opened this afternoon by the governor-general. In his speech he said: "My advisers, availing themselves of the opportunities which presented last year, caused the United States to be notified of the willingness of the government of Canada to join in making efforts for an extension of the trade treaty between the republic and the Dominion as well as for a friendly adjustment of those matters of an international character which remain unsettled. I am pleased to say these representations resulted in assurance that in October next the government of the United States will be prepared to enter into a conference to consider the best means of arriving at a practical solution of these important questions. Papers relating to this subject will be laid before you. Under these circumstances, and in the hope that the proposed conference may result in arrangements beneficial to both countries, you will be called upon to consider the expediency of extending for the present session the principal provisions of the protocol annexed to the Washington treaty of 1888, known as the modus vivendi."

The British in Manila.

MANILA, April 30.—Shortly after the British troops entered Manila, the bodies of Chief Commissioner Quizon, Political Agent Grunwald and those of the members of the commissioners' staff killed in the recent massacre, were exhumed and now lie in state pending an imposing military funeral which takes place Monday next in honor of the dead officials. A commission of army officers has been formed with the object of inquiring into the causes which led to the rebellion and into the massacre of British officials.

A Jack the Ripper Arrest in Washington.

WASHINGTON, April 30.—A man answering in some particulars the description of Jack the Ripper is now under arrest here awaiting the arrival of the New York authorities.

A Mexican Jack the Ripper.

NEW ORLEANS, April 30.—The *Picayune* of Del Rio, Texas, special tells of a Mexican Jack the Ripper, who visited the house of a Mexican woman named Sanchez last night, killed her and cut her body to pieces. After the butchery he wrote upon the wall with her blood, "Fresh beef for sale." The butcher has not been captured.

New York's Light Taxes.

ALBANY, N. Y., April 30.—The tax levy this year is one and three-eighths mills, better for the support only of schools and canals. It is the first time in forty-six years that the people have not been taxed for general purposes.

Public Debt Decrease.

WASHINGTON, April 30.—It is estimated the public debt decreased over \$1,000,000 during the month.

Byrnes and French No. 1.

NEW YORK, April 30.—Inspector Byrnes this morning made public a statement to the effect that the man known as "Frenchy No. 1" is ascertained to have slept in the East River hotel on the night of the murder. The murderer, known as "Frenchy No. 1," occupied Room 31, while "Frenchy" slept in Room 33. On the evening of the night of the murder Carrie Brown was seen going into

BIG FOREST FIRES

In New Jersey Are Assuming Alarming Proportions.

FLAMES SURROUND BAILLYTOWN

The People Are Thought to Be Safe—Carrying Household Goods Into the Streets to Save Them.

PLEASANTVILLE, N. J., April 30.—The forest fires are assuming alarming proportions and have not been exceeded in thirty years. To-night the sky is illuminated for many miles. This morning the trees near Conventon and Fort Republic took fire from a spark from a locomotive and a westerly gale fanned the flames so that by noon the whole forest south of Pomona was blazing. A change of wind saved Abconcon from destruction, but the fire was diverted into the midst of the most valuable young timber in this section. By 3 p.m. the flames had reached Conventon and the citizens turned out to fight them. Their efforts were useless and these living on the edge of the town removed their effects to the open fields and watched their houses burn. The greatest excitement prevailed, and for a time it was feared the whole town was doomed. All the wooded land in the direction of the shore road was burned. Late this afternoon the wind went down and assisted the efforts of hundreds of men to get the fire under control. It was hard work, as water was scarce. The loss in timber alone will exceed \$100,000. This evening a fire broke out again at West Pleasantville, and at a late hour West Pleasantville was surrounded by fire.

Baillytown Surrounded by Flames.

MILLEVILLE, N. J., April 30.—Baillytown, which was surrounded by forest fire yesterday, has not yet been heard from, but it is thought will be all right as the people there have had much experience and probably built "back" fires to save the town. The damage to the timber is enormous. One fire has already burned over seven thousand acres. The fires started at first below Williamstown junction this morning. Hundreds of acres of wood have been destroyed, but most of the farm houses saved. To-night a fire is burning in the woods at Atco, hundreds of men are out fighting it, and endeavoring to save the buildings in its course. Another branch is sweeping through the woods at Chisholm. The residents have been fighting fire all day and are fatigued and discouraged. The town and surrounding country are covered with a cloud of black smoke. The above crew worked to-day destroyed thousands of acres of small wood and a great stretch of cedar swamp.

Descriptive Fire Near Reading, Pa.

READING, Pa., April 30.—A destructive fire is raging on Blue mountain. The fire on the South mountain is six miles long by two wide. An insight into the Chilean Trouble.

(Special to THE HERALD—Examiner Dispatch.)

BALTIMORE, April 30.—One of the most intelligent and interesting insights yet given into affairs in Chile is contained in a private letter received by a Baltimore merchant from a prominent American resident of Santiago. The letter says: "Since the 7th of January we have had no regular mail service and in fact everything is knocked endways by the revolution. The rebels depended upon a public propaganda, and at the commencement of the light had very little organization. But through the manipulations of less than a dozen of the navy officers they got possession of the fleet. Otherwise they would not have had a shadow of a chance. Now the struggle is going to be a long, a bitter and a bloody one, and may eventually divide the country. The president is fighting for an interpretation of the constitution that would assimilate matters somewhat to the United States system, while the opposition contended for the English parliamentary system. The result is that the rebels have the sympathy and support of every Englishman in Chile, while the president has the sympathy of the Americans. Since the revolution commenced the American minister, Hon. Patrick Egan, has been kept constantly on the alert looking after the interests of American citizens and I am informed that in every case where he has made a representation to the government, his statement has been accepted and his request promptly attended to. He has won golden opinions from the American colony. The condition of things here is very interesting. You find the conservative church party, including large numbers of the good fathers, taking an active part in the revolution side by side with the extreme radical or anti-church party, and the latter are not less ardent as they differ they seem to find a common bond of fellowship in hatred of the present executive."

State of the Argentine National Bank.

BRENO ARRES, April 30.—The report of the examiners appointed to inquire into the affairs of the National Bank is published to-day. It shows a most scandalous state of affairs and it has resulted in causing National bank shares to fall 10 points. It is understood that a measure made will be the death blow to the state banks, so far as the Argentine republic is concerned. Gold closed to-day at 250 per cent. premium.

Al Johnson Married.

LOUISVILLE, April 30.—Al Johnson, the well-known baseball man, and Miss Kate Mitchell were married here last night. Both are of old Kentucky families.

Phoebe Couzens' Suit Transferred.

CHICAGO, April 30.—On motion of the attorney for the board of control of the lady managers of the World's fair, the petition of Miss Couzens for an injunction to restrain them from removing her from her position as secretary, has been transferred to the United States court. The ground for the removal was a number of the defendants were citizens of other states than Illinois.

Cashier Covington's Shortage.

MONTGOMERY, Mo., April 30.—Investigation of Cashier Covington's accounts with the Farmers' and Traders' bank shows the shortage is more than double the amount heretofore thought to be missing. It is put at \$20,000. The stockholders have paid the deficiency and the bank will be reopened for business. No tidings from Covington.

Captain Verney Held for Trial.

LONDON, April 30.—There was a sensation to-day at the postponed examination of Captain Verney, member of parliament, charged with instigating the prosecution of the governor, Miss Bracken, for immoral purposes, caused by the testimony of a woman named Louise Adeline, keeper of a hotel in Paris, that Captain Verney had called upon her seven or eight different times and asked her to procure for him two or three girls, promising her 100 francs if she succeeded. A PEACEFUL MAY DAY

Dispatches From Many European Points Indicate It.

PREPARING FOR THE WORST

Th Labor Agitation Has Penetrated to the Remotest Villages—The Eight-Hour Movement Among the Miners.

LONDON, April 30.—Dispatches from many points on the continent indicate a peaceful May day, although the powers are preparing for the worst. Questions of workingmen's rights and grievances are much more widely discussed than a year ago and have reached the most secluded villages in France, Spain, Germany and Italy. The manifestos of Socialists everywhere are revolutionary in tone, a fact which worries the authorities. Through-out civilized Europe the proletarian mobilities and acts in touch with the American movement. This world-wide union is partly spontaneous and partly organized and imparts significance and gravity to to-morrow's demonstrations. In Paris, the Socialists will present a petition for eight hours and other requests to M. Floquet, if they can get a hearing. Some Socialist memorials breathe bellicose sentiments and the Anarchists appeal to the troops to assist them in a revolt. One manifesto proclaims that the time has come for the helots of society to arise, seize dynamite, destroy their oppressors, burn their palaces, banks, prisons, etc. The Anarchistic organization, Pere Bernard, bluntly states to-morrow's plans, saying the Anarchists will wait for a chance to kill, and if one occurs they will join and fight to kill or die. The troops have been heavily reinforced and the main streets are being patrolled to enable the troops to act promptly. The programme is the same in all the cities of France.

Throughout Germany the proposed manifestations create no dispute. The troops have been ordered to the city barracks and the police generally directed to show toleration. In Hamburg broad latitude is given the workmen, who will have a great procession.

In Vienna, the workmen propose to march 100,000 men to the Prater, where they will group around speakers and in case of disorder, disperse.

In Rome, no uneasiness is manifested, but in Naples a semi panic prevails, owing to the Anarchists' threats to blow up public buildings with dynamite. Anarchist manifestos in Milan, Parma and Turin have forced the government to adopt severe measures of repression.

In Belgium, the workmen will send delegates to the chambers to demand universal suffrage and eight hours. Troops will be kept on duty all day.

In Madrid, and other cities in Spain and Portugal, the workmen will suspend work, but no violent demonstration is to be made. Troops are under arms everywhere.

Monday has been set as the time for labor demonstrations in Holland and England. It is expected that the telegrams from the mining districts report great agitation and threats of a general strike.

Ohio Miners and the Strike.

COLUMBUS, April 30.—The determination of the executive board of the United Mine Workers in resident state organizations to defer a strike in the interest of an eight-hour labor day, does not seem to have been a definitely settled question even among the miners of Ohio. The executive board made a proposition to the operators to continue at the old rate for mining and accept by October 1st a new rate of 10 cents per ton. The operators refused to accept unless they can have an assurance that the agreement will not embarrass them to such an extent that competing outside labor will be able to beat them in the market. The Ohio miners also convened this morning and are considering the matter. Some of the minor delegates representing the districts are disappointed over the action of the executive board in postponing the strike for an eight-hour day.

The Michigan Car Strike Over.

DETROIT, Mich., April 30.—The strike at the Michigan car shops is practically over. Every department is working and by Saturday full operations will be resumed. The first shot of the tunnel between Detroit and Windsor was turned this morning.

A Big Strike Imminent in St. Louis.

ST. LOUIS, April 30.—If developments in the labor situation can be said to be forerunners of what is to happen to-morrow, one of the most serious strikes in the history of St. Louis is imminent. The number of men who will go out will be fully 3,000 besides carpenters, marble-cutters, plumbers, masons, architects, painters, workers, maisters and union strikers probably go out.

Indiana Miners Will Strike.

BRAZIL, Ind., April 30.—The strike will be on to-morrow and 1,800 black coal miners and 800 bituminous coal miners will affect the miners so much as scale questions. It is understood that the miners, about five hundred in number, have been out since Wednesday owing to the discharge of the mine boss.

Pittsburg Carpenters Will Strike.

PITTSBURG, April 30.—The carpenters of this city will strike to-morrow for eight hours and an advance in the rate of pay. The stonemasons who are now out will also strike. Contractors have agreed to look out all other branches of the building trade as well as the strikers, because they are all under a sort of confederation. There are about nine thousand workers in various trades here.

Later To-night the Master Builders Concluded not to Lock-out the Other Trades and the Result will be all work on present contracts, until they have gone as far as they can without carpenters, when they must find themselves simply unable to proceed, are not locked out. The master builders have determined on this move to protect buildings in other cities and so trades outside the carpenters could not have a pretext for striking for eight hours, thus causing the movement to spread. Reports from many towns in this section say the carpenters generally are striking for eight hours, and the indications point to the strike spreading rapidly.

Eight-Hour Demonstration in Spain.

LONDON, April 30.—A dispatch from Madrid, Ind., says: Valencia, Bilbao, Cadiz, Barcelona and the principal manufacturing towns of Catalonia, are agitated. The Socialists have obtained permission to hold eight-hour demonstrations, but they must not gather in the streets. Troops will be sent to all places where trouble is feared. The fleet has gone to Barcelona.

Coal Shuts to Shut Down.

LA SALLE, Ill., April 30.—To-morrow all the coal shafts in this vicinity excepting the White Breast mines at Ladd, will shut down.

French Troops on the German Frontier.

PARIS, April 30.—Newspapers of this city to-day announce that the French armies on the German frontier will be exercised in the right military district, department of Meurthe-et-Moselle and will take up war positions along the frontier. The troops of Meurthe-et-Moselle will be reinforced by a large force of cavalry and infantry brought together by extensive mobilization of army reserves. The troops thus placed under arms will occupy all the vital positions which they would have to hold in an effort to repulse an invasion of German troops.

Adrien Marie Dead.

PARIS, April 30.—Advice received from Senegal state that Adrien Marie, the French painter, died there from yellow fever.
